## community center

**Job Title: Youth Program Educator, Sixth Street Youth Program**

**Compensation: \$22/hr, Part-Time, Year Round, ~20-30 hours/week**

### **Program Summary**

Since 1984, Sixth Street Community Center (SSCC) has provided after school and summer programs to ensure that low-income neighborhood children and teens have an equal opportunity to excel. In 2012 in response to the deepening climate crisis, SSCC revamped its program to focus on urban sustainability, urban farming, recycling and composting as strategies to begin addressing this crisis and its impact on the everyday lives of kids and adults. Sixth Street Youth Program utilizes creativity and the arts as a tool to engage youth in these topics. In 2019-20 (before the onset of COVID-19) the Sixth Street after school and summer programs offered 180 children- 70 percent youth of color- hands-on workshops in these areas, a climate justice curriculum and tools for youth based-activism alongside on going community outreach and engagement activities. Sixth Street Youth are regularly engaged in the organizing work that SSCC is involved in locally such as anti-displacement & anti gentrification campaigns, public land-use advocacy, park/garden preservation, opposition to fracking and fossil-fuel expansion and campaigns that advocate for people-centered, sustainable development. Using an age appropriate approach, the program explores these and other environmental issues and fosters a critical lens on the root causes of the climate crisis examining the underlying system of racial and extractive capitalism that perpetuates climate destruction.

### **Job Summary**

Sixth Street Community Center (SSCC) is seeking a passionate, mission driven team-builder to fill the role of a Youth Program Educator to work within our Sixth Street Youth Program (SSYP).

SSYP is an out of school time program that offers NYC youth quality after school and summer workshops in an intimate class setting. With a limited enrollment to 25 students per day, each child receives thoughtful guidance and support that is needed to foster their individual and creative growth.

Our program is committed to developing strong community, creative skills, mindfulness, and social and environmental awareness among our youth. Our mission is to cultivate a warm and inclusive atmosphere that honors each student's unique strengths. We primarily serve youth local to the Lower East Side and provide holistic enrichment in visual arts, creative writing, urban gardening, cooking, health and urban sustainability.
